

Here are a few items that are interchangeable from 1966-1969 Falcons.

66-70 fenders all 'technically' bolt up, but have small differences that will need to be remedied to be "correct".

66-67 doors interchange, 68-70 doors interchange. The doors themselves WILL bolt up, but the crank positioning through the trim panels etc is different.

68-70 grilles are all the same (Im almost certain), 66 and 67 are year specific.

66 and 67 taillights do interchange, but have a different look to them. OK as long as you dont mind it not having an authentic look, but the bolt up and bulbs are the same. 68-70 taillights are all the same (again, Im almost certain), but not with the 66-67 as they are round and the latter are square.

66-70 glass interchanges.

Hoods interchange, but there is a grille support flange that needs removed for a 66-67, or added for a 68-70. Hood themselves are all the same though.

68-70 dashes are WAY different than the others. 66 and 67 will interchange, but do have a different look to them.

66-70 trunks interchange.

66-70 window trims interchange.

66-70 wheelwell trim does/will interchange, but do tend to get different looks to them.  
Get a whole set or dont bother.

66-67 front bumpers are the same.

68-70 front bumpers are the same.

66-70 rear bumpers are the same as far as I know.

Justin Welling started this list originally and we all can add to it!

Thanks Justin!

I will add to this list as I find more parts that are interchangeable.

Feel free to e-mail me if you know of any other parts that interchange and I will add them to the list.
